HAWAIIAN REFINERY

Pollitz's Scheme For Island Sugar.

INVOLVES ENTIRE SUGAR OUTPUT

A Gigantic Proposition Which Has Eastern Capital to Back its Establishment.

Ed. Pollitz, the San Francisco broker and financier, and his associates, are figuring on a gigantic proposition for the refining on this soil of the entire product of the Hawaiian sugar plantations, which, if carried through to completion, will be a great saving to the planters. Mr. Pollitz is now in the Islands mainly to look over the field and to ascertain whether or not the plan is thoroughly feasible.

The financier is accompanied by Mr. O'Shaughnessy, a civil engineer of reputation on the Coast. They are both making a thorough investigation of conditions here in order to arrive at a definite understanding as to what sized refinery should be erected. They have both visited Maui and Hawaii, inspected the various plantations on each, and will continue to make further investigations until Mr. Pollitz's departure for San Francisco in about six weeks' time.

The Pollitz interests in the Islands are not the only ones to be considered in the scheme, but every plantation, it is hoped, will join in the movement and thus assure the refinery of an unqualified success. The Island plantations, through their agents, entered into a contract last year with the sugar trust for three years, whereby they agreed to ship the mill products to the refineries either on the Coast or around the Horn to New York. One year's crops have already been delivered and two more will be forwarded. Mr. Pollitz and associates in the meantime expect to have their scheme in such shape that by the end of that period the mill products can be sent to the local refinery.

In an interview with an Advertiser representative on the subject Mr. Pollitz said yesterday:

"Yes, I am now in the Hawaiian Islands looking up the proposition to establish a sugar refinery here. It is our aim to take in all the plantations, whether they are or not at present allied with the sugar trust interests of the Mainland.

"It is the opinion of myself and associates that the establishment of a sugar refinery on these Islands would mean much to the planters and would materially reduce the margins which the refineries on the Coast now receive according to the terms of their agreement.

"You know the plantations pay a considerable tribute to the sugar trust. They take our sugars at a figure far below the public or regular market quotations, as they are generally termed. The refineries are now taking the Islands sugars and refining them on a contract made for the period of three years. One crop has been delivered and two more are to follow.

"This is a matter which I have studied for some time and have talked over in the East with capitalists interested in Hawaiian Island securities, and they are generally in accord with my plan for the establishment of such a refinery. I have spent considerable time East making known the proposition, and it was favorably received, despite the knowledge that the sugar trust is a strong combination.

"I received encouragement from many large capitalists to whom I made known my proposition. The capital is all ready to go into the scheme whenever I make a call for it. There was no trouble about securing money.

"As to the refinery itself, it will be sufficiently large to refine all the sugar produced on the Islands at present, and arrangements will be made in its construction to allow for increased product for years to come. We have to take into consideration a steady increase in the output on account of the new plantations started up in the last year or two whose product will send the tonnage up very high. We are now having the specifications of the refinery prepared, but until they are completed I cannot say just how much it will cost, and of course, the capitalization of the company depends largely upon that.

"My San Francisco partner has also been in the East working up the proposition, and he assures me of hearty co-operation on the part of capitalists to go into the scheme. When I have completed all my investigations here I shall submit the whole proposition to the planters. To my mind, the establishment of a sugar refinery would mean much to the Islands. Just where it would be located has not yet been decided.

The report that a sugar refinery was to be established here was current talk among the stock brokers yesterday and the majority of them favor it.

THE SAME OLD STORY.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Benson, Smith & Co., wholesale agents.

The morning of life is the time of abundance, profusion, strength, vigor, growth. When the sun begins to sink, when the midday of life is past, then the hair begins to fade and the silvery gray tells of approaching age.

Sunrise or sunset? Which shall your mirror say? If the former, then it is rich and dark hair, long and heavy hair; if the latter, it is short and falling hair, thin and gray hair.

The choice is yours, —for

Ayer's Hair Vigor

always restores color to gray hair, stops falling of the hair, and makes the hair grow long and heavy.

This is something you have been looking for, isn't it? And it is something you can have confidence in, for it is no experiment; people have been using it for half a century. We do not claim it will do everything, but we do claim it is the best hair preparation ever made.

OFFICE OF CARROLL WHITAKER, ATTORNEY,

Hilo Hawaii.

Hilo, Hawaii, June 7, 1901.

Dear Sirs—In my innocence I purchased here in Hilo a jar of your

PIN-MONEY PICKLES (put up by Mrs. E. G. Kidd, Richmond, Virginia.)

It brought me great trouble, and one of three things must occur:

1. You must stop making them; or, 2. I must get them at less expense; or, 3. I'm a ruined man.

Since my first venture I've had many "jars." My family from early morning "Pickles;" neighbors ring the doorbell and shout "Pickles;" relatives visit me in expectation of "Pickles." Your pickles are my Nemesis. Please, dear sir, quote them by the keg, barrel, hoghead, ton or shipload, and "preserve" me. Yours very truly,

CARROLL WHITAKER.
